

Learning Plan 4: Performance Assessment 2 Discussion Participation

Scoring Standards:

Assessment Criteria:

10 Points Weekly for posting content including elements listed in discussion instructions.

Core Ability Criteria:

2 = Demonstrated Fully

1 = Demonstrated Partially

0 = Did Not Demonstrate

Criteria	Values
Assessment Criteria	
One hundred percent (100%) of the assigned discussions have been participated in following directions on a weekly basis. Notes: <i>You will need to participate every week by the due date assigned. Your posting need to contain 100% of the instructed tasks as given on the discussion board's directions. Points per week are outlined in the discussion instructions. Each week the contents of the discussion is worth a total of ten points for that week. You will need to do all tasks as directed.</i>	120
Core Abilities Criteria <i>These points will be assigned at the end of the weekly postings in reflection of the total efforts put forth during the weekly postings.</i>	
Act responsibly.	
Learner completes assigned tasks according to prescribed deadlines. Notes: <i>By the due date assigned weekly or points will not be earned.</i>	2
Learner adheres to established directions and criteria. Notes: <i>Following 100% of the instructions given on the discussion board's directions. Failure to post the required number of resources or tools, Failure to post the correct types, failure to post the responses and evaluations will result in not earning full points.</i>	2
Work cooperatively.	
Learner shows evidence of respect for diversity.	2
Learn effectively.	

Learner organizes information. Notes: <i>While the discussion board doesn't allow for formatting, you can use spaces to separation and organize your postings, you are expected to do so.</i>	2
Learner produces evidence of learning. Notes: <i>Your postings should show evidence of growth, evidence to critical thinking when making selections of tools and resources and final drop box submission should include a reflection statement in the comment box reflecting on the experience and what you learned.</i>	2

What I gained in LP4 resources is the knowledge of the resources and tools everyone share. I find some new tools like Mock Flow (<https://www.mockflow.com/> (Links to an external site.)) or how to see if your site is Mobile-Friendly (<https://search.google.com/test/mobile-friendly> (Links to an external site.)). I also found some great resources like 9 Tips for Building a Better Website (<https://www.americanexpress.com/en-us/business/trends-and-insights/articles/9-tips-for-building-a-better-website/> (Links to an external site.)), How to plan a website in 7 steps (<https://www.godaddy.com/garage/how-to-plan-a-website/> (Links to an external site.)) or the trends of 21 modern web design trends for 2021 (<https://webflow.com/blog/web-design-trends-2021> (Links to an external site.)).

When it comes to the tools, they are convenient when you need to use something on the fly, or maybe you need an idea from a tool, or when people share resources, they come in handy for ideas.

I saved all the links people shared if they were valuable to my learning. I had already marked some stuff, but it is an excellent refresher on what I have learned in Web Design over the past two years. In this learning plan, I also found some new resources and tools that other people had that I didn't know about, which was an excellent resource.

It was a great insight to see what other people use for tools or resources, but sometimes I didn't understand what some people were sharing when it came to Web Design, but I think everyone's view is different when it comes to design. I also found some excellent links if you were working from or from what we learned in the previous class in Web Design.

Over the past two years, I have saved countless web links from Web Design, and with learning plan four, I found some valuable resources and tools as well when it came to learning. This is an excellent learning plan because I got to save and share useful sources from others I may have missed or didn't know about with Web Design.
